The Fragile Colossus

Entrant Company Newen Connect

Summary

Sebastien is a former rugby player and a true colossus. Between 12 to 16, he seemed to be a child with the happy demeanor typical of his native Southwest region. But this joie de vivre was actually a smokescreen intended to protect his family's harmony.

During those four years, Sebastien was a victim of rape. For four years, he suffered in silence because his abuser was none other than a close friend of his parents, loved by all. Thirty years later, Sebastien remains unable to come clean. His demons are destroying him. He wavers between his need for revenge and his desire to ensure that no one else will have to live through what he has.

After Sebastien meets a kid, a wounded little giant like the child he once was, and reconnects with the girl he didn't know how to love as a teenager, he is compelled to make the right choice - justice... But at what cost?

★ The story of best friend Jimmy, who was joined by Tully, who was sentenced to a time limit, at the time of organizing his life, raises serious questions about how to accept death and what the relationship between people should be like. It was also good that Tully gave viewers time to think while capturing the time he lived and he spent with people.

Summary

The arc of the first season will comprise the beginnings of Héctor Belascoarán Shavne as a detective: he will face the case that drags him into becoming an investigator and will find in a mysterious young woman the impulse to confront everything in his own way; he will be put to the test when three cases that seem like easy matters get mixed up in his head, even though they have nothing to do with each other, while he goes through a whirlwind of sleepless nights; and, risking his life, he will defy the darkest power by fighting against the abusive, despotic, and illegal practices of one of the most feared parapolice groups in national history. Parallel to his evolution, the figure of Commander Paniagua emerges, a prototypical, inefficient, cynical, immune, and bastard police officer, who will emerge as the incarnation of our hero's great nemesis: the system.

Accused: Scott's Story

Entrant Company Sony Pictures Television

Summary

Every story opens in a courtroom on the defendant, with viewers knowing nothing about their crime or how circumstances led to prosecution. Told entirely from the defendant's point of view, gritty performances, timely contemporary themes, and stark, uncompromising cinematography combine, holding an unapologetic mirror to the complexities of our time with evocative and emotional stories that will make audiences think, talk, and perhaps act.

With unexpected twists and complicated truths being revealed at every turn, week after week Accused introduces characters from all walks of life – a friend, colleague, neighbor, family member, even ourselves – and asks the eternal question: "What would you do?" For in life, we can easily find ourselves one word, one misstep, action, or inaction away from being the accused.

Legacy

Entrant Company Newen Connect

Summary

This sweeping saga, based on the book by Alexander Münninghoff, tells the compelling true tale of his own family across three generations. Using epic flashbacks, with reconstructions of pivotal moments, it is both a coming-of-age story and a journey into the past of some of recent history's darkest times. It starts in 1969, the Summer of Love. When Alexander falls in love with the free-spirited Ellen, she confronts him with the hidden war past of his family. During an emotional, at times desperate, search for understanding and reconciliation with his former Nazi father, wealthy authoritarian grandfather, and long-lost mother, he comes to realise who his parents really were and tries to rebalance the scales of history.

In the process, Alexander becomes a fully-fledged husband, son, and father. At its core, the series is about a legacy and the heavy burden that can come when it is imposed. It is about the choices we make – leading to conscious and unconscious inheritance – and the personal legacy from parent to child.

Cammo

Entrant Company NRK

Summary

Cammo, just nominated to Norway's biggest influencer award, becomes bankrupt. She loses everything and ends up being forced into a job she finds uncomfortable - as a personal assistant for Kamilla, a girl with Down's Syndrome. This is the start of a story about keeping up appearances, facade, friendship and chromosomes. Cammo is a heartwarming and edgy comedy drama about two women who seem wildly different, but turn out to be more similar than one would think. They are both tired of prejudice, they always choose the path of the least resistance, and they share the same guilty pleasure - Swedish euro dance 90s sensation E-Type.

Juries Comment

★ Currently, the most important issue of global content is cultural diversity. This work, which depicts the friendship between a influencer woman and a woman with Down syndrome, talks about various values in two aspects, especially gender and minority. The meeting and conflict between the two women are more progressive in that they result from the "difference" of their character rather than the presence or absence of disabilities. It is also notable that the distinct theme consciousness is solved with public fun. Each episode, which takes about 17 minutes, proceeds cheerfully with quick and sensuous editing and directing that takes advantage of the characteristics of the influencer's main character.

Extraordinary Attorney Woo

Entrant Company Astory

Summary

Woo Young-woo, twenty-seven years old, is special. It is because she is "a person with autism" with an I.Q. of 164. She has autism spectrum disorder but can memorize every book she has ever read. And Young-woo's dream is to become an attorney. Young-woo graduated from Seoul National University Law School at the top of her class and passed the bar exam to become an intern attorney for "Hanbada", the second largest law firm in Korea. On her first day at Hanbada, she notices that not a lot of people are amiable to an attorney with autism. Myung-seok, a senior attorney who is in charge of intern lawyers, is not satisfied with Young-woo's untrustworthy behavior; he attempts to test Young-woo's abilities by entrusting her with a public interest case. Will Young-woo really be able to prove her aptitude and prove herself to be a 'real attorney'?

The Glory

Entrant Company Netflix

Summary

Born to a single mother and raised in poverty, Dong-eun was the victim of bullying at school. The brutal violence snuffed out her smile, crushed her spirit to powder. On a day with perfect weather for dying, she set out to kill herself. Perhaps it was the fog that saved her on that day - so thick she could scarcely see in front of her. The scars on her arms and legs itched under her damp clothes. Crying at having picked the wrong day, she suddenly realized how pathetic she looked, and gave out a laugh. And then the thought hit her: Why should I be the only one to die? There would be no forgiveness. Not that any of them would ever make it to heaven.
